

Protocol::startXMLTagNodeHandler

```
graph LR; startTag[startTag] --> Protocol[Protocol::startXMLTagNodeHandler];
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'Protocol::startXMLTagNodeHandler'. The box on the right is white and contains the text 'startTag'. A dark blue arrow points from the right side of the 'startTag' box to the left side of the 'Protocol::startXMLTagNodeHandler' box, indicating a call or relationship between the two.
